Consent for Generalized Supervision

The State of Kentucky has passed a law allowing a licensed dental hygienist to perform a dental cleaning without the presence of a doctor. Only if the patient's medical history is in good standing and an examination has been performed by the doctor within the last seven months. The patient must also be notified prior to the appointment. The consent for generalized supervision is a precautionary measure. The intended use of the patient's consent will be used in an extreme circumstance only.
